Yes, And...

Leading with the Heart: Connecting our characters with the audience is my fundamental goal. Unlocking the story's emotional core to elevate the human element and craft a narrative that deeply connects with viewers.

Raising the Stakes: Always digging for that hidden tension and building the drama through precise pacing, epic reactions and edge-of-your seat cliffhangers. Meticulous sound design and music selection are key.

Humor as a Tool: Gotta bring the laughs! Not only does well-timed humor keep audiences engaged but it can be a bridge to evoking deeper emotions.

Collaborative Spirit: My cross-genre experience fuels an open and collaborative approach. Together, we'll craft a highly polished work that's true to your vision, stirs the viewer's heart, and delivers a powerful story with lasting impact.
